A Survey to Address Cape Cod Childcare Needs Boston, January 23, 2017

Studies show that high-quality preschool has the longest lasting benefits for children. That's why universal preschool will create the greatest amount of good for the greatest number of people. Fair Shot For All and Cape Cod Voter Issues Coalition are asking parents to take the [Cape Cod Child Care Services Survey](#) to demonstrate to leaders and legislators that preschool is important and critical in their communities. We hope parents on Cape Cod will complete this survey and pass it on to other parents in their networks.

The knowledge collected from these surveys will help to assess the childcare resources available to the community. Responses will also help formulate how community leaders will address the need for greater preschool accessibility.

Beginning in September, Fair Shot For All teamed up with CIVIC, Cape and Islands Voter Issues Coalition, to work on a collaborative initiative to implement universal access to preschool on the Cape and Islands. Children without access to quality preschool currently enter school on an unequal playing field; the initiative wants to smooth out that transition and give everyone an opportunity to succeed.

Fair Shot is a new non-profit whose mission is to educate and mobilize people to work together to reverse the growing gap in income and wealth in Massachusetts and across the country. The organization works to fight back against special interests that have rigged the system so the vast majority of wealth flows to the richest 1%. Through grassroots organizing, Fair Shot galvanizes communities around such issues as Debt-Free College and Paid Family Leave.
