Note: The S1701 reports do not provide the percent of those "less than 200% poverty." These percentages however are calculated using the numbers given in the S1701 data. Although the 2011 ACS has more recent data, it is are not reported out for small towns, so we need to use the combined 2007-2011 (named the 2011 5-year estimate). In American Fact Finder it's the ACS 2011 5-year estimate, S170 and B17017. You will have to do some computations.
